MAYSVILLE SYRUP CO.
Officials Visit Salisbury, N. C., and Find Everything Booming—Thirty-One Bottling Plants Busy.

The Directors of the Maysville Syrup Co., met last evening, at which time the Special Committee, which was sent to Salisbury, N. C., to represent the Maysville Syrup Co., at the annual stockholders meeting held January 5th, made a report of the situation as they saw it, which follows:

We found the Mint Cola Company of America by what we believe to be high class representative business men of their community. They showed by their talks at the meeting that they were as deeply interested in Mint Cola and that they considered it of equal importance as their other business interests. We found them to be men who had made a success of their other interests along business lines.

We found the company doing business in a new building built purposely for their use by one of the stockholders. The building itself was modern and well equipped for the business.

To date the company has 31 bottling contracts in North and South Carolina. A good many of these bottlers are men of experience in the bottling business and are equipping their plants with modern machinery and automobile trucks.

The outlook for business in that section was much better than your committee expected to find it and we do not hesitate to predict for them a bright future and we feel that The Maysville Syrup Company has a very valuable asset in the Mint Cola Company of Salisbury.

THE PROGRESS OF THE Independent Warehouse!

Is evidenced by the fact that we are holding all our old customers and gaining many new ones. This is due to the manner in which we conduct their business for them. Our efforts are always in the interest of the seller and the average of \$19.17 made by George Wilson, Adams county, on \$3,445 pounds, and the average of L. M. Morgan, Mason county, \$17.92, show that we get results. One basket reached \$25 and several went past \$20. The experience our force has had gives us the right to say "We Lead; Others Follow." Bring your tobacco and let us prove it to you.

ELECTRIC SIGNS!

The distinguishing air of quality which a first-class Electric Sign gives to a store is the element which gives a sign its greatest value as an advertising medium and investment. The impression it makes is good. It blazes forth to the public that there is business enterprise, merchandise and methods up-to-date. It affects the entire atmosphere of the business district. The stranger says, "It is a live town," and publishes it abroad.

It is the Sign of the Times.
